The astonished alms givers were much disgusted, and predict for the fraud a worse fate than that which befell Annanias and

Mrs. Mary Friz died very suddenly at her hou in this township on the night of the 27th ult. She waked up at 2 o'clock, the family were called to her bedside and within a few minutes her sou took its flight to join that angelie host above The funeral sermon, which was a very able one was delivered by Rev. Mr. Carthy, of Abilene, to The bride wore a beautiful gros-grain a very large concourse of mourning filends, after

# to See.

EDITORS REFLECTOR:-In regard to the wheat merchants of Enterprise, the farmers of southeast Dickinson would like to see some changes made. In the first place, we would like to see two or three dumps built so that we would not have to as Abilene should have lighted streets. The 30 gas lamps would not cost more than \$25 or \$30 each per annum. The Replacement of Abilene would be glad to have the streets lighted, and would be willing to pay for gas. Gas works and lighted streets would increase the value of property, and make the city more attractive. The conventions of the interest of the streets would increase the value of property, and make the city more attractive. The conventions of the interest of the streets would increase the value of property, and make the city more attractive. The conventions of the streets would increase the value of property. The conventions of the streets would not have to wait from a half to two hours everytime we haul a load of wheat. The loss of so much that is a load of wheat. The loss of so much that we would not have to wait from a half to two hours everytime we haul a load of wheat. The loss of so much that is a load of wheat. The loss of so much that is a load of wheat. The loss of so much that is a load of wheat. The loss of so much that is a load of wheat. The loss of so much that is a load of wheat. The loss of so much that is a load of wheat. The loss of so much that is a load of wheat. The loss of so much that is a load of wheat. The loss of so much the is most in the sum of the streets were numerous, and the following is a partial list:

Mr. R. Knight, parlor lamp: Mrs. R. Knight, table lines; Miss Rosa Knight, set silver knives, all the course of the wait from a half to two hours everytime we haul a load of wheat. The loss of so much that the two days and in the course of tour months, when the is monthing but a straight steal from the farmers, for time is mond of wheat. The loss of so much that the load of wheat. The loss of so much that the two thinds a load of wheat. The loss of so much that the two thinds a load of wheat. The loss of so much that loss of so much the loss of so so long to unload. Besides this loss of time it is not very pleasant, after riding a long distance and getting to town about noon, to have to stand around and stamp your feet to keep from freezable.

> eve; it may be is bought we would like to see the farmers get paid for it, i. e. get all that is com-ing to them. For example a farmer sells a load of wheat, it comes to so many dollars and 27 cts. The check is made out for the dollars and 25 cts. If anything is said by the farmer, they say "O, you wont get the change any way." If asked why they say, "we can't get it." Now such as that don't seem very plausable. It seems to us if banks are such institutions as they claim to be Northeraft's; also Safety oil. they should always have a supply of change on hand. They may say that a man is very particular about two or three cents, but if it is hon-estly his why should he not have it. The cents help to make the dollars. We once heard of a man who by saving the odd cents in a period of ten years accumulated the neat little sum of \$264 Let us have the odd cents and the odd pound A FARMER.

# Industry Inklings.

The holidays are passed. The New Year came in blustering with severe and intense cold.

The farming and other interests are preparing to shape their destinies for question of moment is, Free Trade and | terns out. Sumptuary Laws. It is without flatte-

ry that I can positively state that the

stock business in this city.

of poor teams, and by honest industry
and close attention to farming they now
own 720 acres nearly all paid for. All of their land lies in the southern part of Clay county near Chapman Creek. RIP VAN WINKLE.

### Cotton Interests.

The Manufacturers' Herald, Baltimore, publishes an article showing a remarkable increase in cotton manufacturing interests in the south the last three years. The figures show now 1,314 cotton mills, having 1,276,422 spindles and 24,873 looms. In 1880 the value of the manufactured cotton produced was a little over \$21,000,000; in 1883 it had risen to \$35,000,000 or \$40,-000,000. During the last three and one half years \$20,000,000 have been invested by new and old cotton mills in machinery, the bulk of which was paid to northern and western machinery manufacturers.

Congressman Willis, of Kentucky, is chairman of the Committee on Rivers and Harbors. He spent the holidays at home in Louisville. The Courier-Journal reports his reply to somebody who asked for information respecting the plans of the committee: "Although I am Chairman, I am only one member, and cannot speak for all. In a general way, however, I would say that the committee will aim to be liberal with the great national thoroughfares, such as the Mississippi, lakes and the coast. These shall not complain justly, but we will wipe out every little creek and pool which have been heretofore made the recipients of so much aid. This course will be adhered to in spite of friends or and two lots in town to some parties from Ohio, toes." The last part of the programme who will commence building a hardware established by the programme is excellent. is excellent.
